Lab Task 2

The screenshot shows a resume website with a black header and a light yellow background. The header contains the name "Youssef Lotfy", the title "Data Scientist @ Ain Shams University", and three buttons: "About me", "Projects", and "Contact". The main content area has a section titled "About Me" with a bio, a section titled "Skills" with a list of programming and data analysis tools, and a section titled "Projects" with a placeholder message.

Youssef Lotfy

Data Scientist @ Ain Shams University

[About me](#) [Projects](#) [Contact](#)

About Me

I'm a Computer Engineering student at Ain Shams University, passionate about **Data Science, Machine Learning, and AI automation**. I enjoy solving real-world problems using data-driven insights and efficient algorithms.

I have hands-on experience with Python, SQL, and Excel, and I'm currently expanding my skills into AI model training, data visualization, and backend development.

Skills

skills into AI model training, data visualization, and backend development.

Skills

- Programming: Python, C++, Java, SQL
- Data: Pandas, NumPy, Matplotlib
- Machine Learning: Scikit-learn, Linear/Logistic Regression, Clustering
- Web: HTML, CSS, JavaScript, React (basic)
- Other: Git, Excel, Power BI

Projects

Coming soon...

Projects

AI-Based Meal Planning App

Designed an AI-driven nutrition and healthy eating app that recommends personalized meal plans and rewards users for achieving fitness goals. Integrated gamification and progress tracking for higher user engagement.

Movies Watchlist App

Built a simple React-based app to manage a personal movie watchlist. Users can add, remove, and mark watched movies — data stored locally using React state.

Tiny Language Compiler (C#)
